Technische Universität Dresden (TUD), as a University of Excellence, is one of the leading and most dynamic research institutions in the country. Founded in 1828, today it is a globally oriented, regionally anchored top university as it focuses on the grand challenges of the 21st century. It develops innovative solutions for the world's most pressing issues. In research and academic programs, the university unites the natural and engineering sciences with the humanities, social sciences and medicine. This wide range of disciplines is a special feature, facilitating interdisciplinarity and transfer of science to society. As a modern employer, it offers attractive working conditions to all employees in teaching, research, technology and administration. The goal is to promote and develop their individual abilities while empowering everyone to reach their full potential. TUD embodies a university culture that is characterized by cosmopolitanism, mutual appreciation, thriving innovation and active participation. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

At the Cluster of Excellence "Physics of Life" (PoL) the Junior Research Group Mechanics of active Biomaterials (Dr. Elisabeth Fischer-Friedrich) offers a position as

**Research Associate / PhD student (m/f/x)**
(subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

starting **February 1, 2023**. The position entails 65% of the fulltime weekly hours and is limited until December 31, 2025 with the option of extension. The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz - WissZeitVG). The position offers the chance to obtain further academic qualification (e.g. PhD).

**Tasks:** scientific research activities within the Junior Research Group with the following research topics: mainly experimental **study of the mechanics of live cells in relation to intracellular ion fluxes and protein binding dynamics.** The underlying goal is to generate a better understanding of emergent material properties of cells and cellular shape regulation in tissues as well as the feedback of cell mechanics with biochemical signaling. Methods include atomic force microscopy, confocal fluorescence lifetime microscopy, cell culture and mechanics of viscoelastic materials. Furthermore: analysis of experimental data with custom-made computer programs, writing of scientific manuscripts for publication in the relevant periodicals; conducting detailed literature searches; writing regular interim reports; participation in professional conferences and presentation of the research work of the laboratory and its projects; support of the institute for applications for third-party funding.

**Requirements:** university degree (Diploma / Master) in physics, biophysics, or material science. Good command of spoken and written English; communication skills; high motivation and teamwork.

TUD strives to employ more women in academia and research. We therefore expressly encourage women to apply. The University is a certified family-friendly university and offers a Dual Career Service. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment.

Please submit your comprehensive application including the usual documents by **November 4, 2022** (stamped arrival date applies) preferably via the TU Dresden SecureMail Portal [https://securemail.tu-dresden.de](https://securemail.tu-dresden.de) by sending it as a single pdf-document to diana.stoehr@tu-dresden.de or to: TU Dresden, Exzellenzcluster "Physik des Lebens" (PoL), Nachwuchsforschungsgruppe Mechanik aktiver Biomaterialien, Frau Dr. Elisabeth Fischer-Friedrich, Arnoldstr. 18, 01307 Dresden,
Germany. Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.
