Technische Universität Dresden (TUD), as a University of Excellence, is one of the leading and most dynamic research institutions in the country. Founded in 1828, today it is a globally oriented, regionally anchored top university as it focuses on the grand challenges of the 21st century. It develops innovative solutions for the world's most pressing issues. In research and academic programs, the university unites the natural and engineering sciences with the humanities, social sciences and medicine. This wide range of disciplines is a special feature, facilitating interdisciplinarity and transfer of science to society. As a modern employer, it offers attractive working conditions to all employees in teaching, research, technology and administration. The goal is to promote and develop their individual abilities while empowering everyone to reach their full potential. TUD embodies a university culture that is characterized by cosmopolitanism, mutual appreciation, thriving innovation and active participation. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

At the Cluster of Excellence „Physics of Life“ (PoL), the Heisenberg Chair of mechanics of active biomaterials offers a position as

**Research Associate / PhD student (m/f/x)**
(subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

starting **December 1, 2023**. The position is entails 65% of the fulltime weekly hours and is limited until November 30, 2026 with the option of extension. The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz - WissZeitVG). The position offers the chance to obtain further academic qualification (usually PhD).

**Tasks:** scientific research activities within the Heisenberg Chair of mechanics of active biomaterials of Prof. Dr. Elisabeth Fischer-Friedrich with the following research topics: mainly experimental examination of the **pattern formation and viscoelastic dynamics of the cell cortex**. The underlying goal is to generate a better understanding of emergent patterns in the cortical biopolymer shell of animal cells with the goal to better understand cellular shape regulation in tissues. Methods include atomic force microscopy, confocal fluorescence microscopy, cell culture and hydrodynamics of active materials. Furthermore: analysis of experimental data with custom-made computer programs; writing of scientific manuscripts for publication in the relevant periodicals; conducting detailed literature searches; writing regular interim reports; participation in professional conferences and presentation of the research work of the laboratory and its projects; support of the institute for applications for third-party funding.

**Requirements:** university degree (Diplom / Master) in physics, applied mathematics or chemistry; experience with differential equations and wet lab work; good command of spoken and written English; communication skills; high motivation and teamwork.

TUD strives to employ more women in academia and research. We therefore expressly encourage women to apply. The University is a certified family-friendly university and offers a Dual Career Service. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment.

Please submit your detailed application documents by **August 31, 2023** (stamped arrival date applies), preferably via the TU Dresden SecureMail Portal [https://securemail.tu-dresden.de](https://securemail.tu-dresden.de) by sending it as a single pdf file to **elisabeth.fischer-friedrich@tu-dresden.de** or to: TU Dresden, Pol., Heisenberg-Professur für Mechanik aktiver Biomaterialien, Frau Prof. Dr. Elisabeth Fischer-Friedrich, Arnoldstr. 18, 01307 Dresden, Germany. Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.
